EDUCATION

•National Institute of Technology, Warangal

B.Tech , Computer Science Engineering

2024 - 2028

CGPA/Percentage: 7.36

•Sri Chaitanya Junior College

Board of Secondary Education, Andhra Pradesh

2024

CGPA/Percentage: 97.4%

PERSONAL PROJECTS

•Animalzpedia

2026

The website allows user to search for any animal via its name

- Tools & technologies used: HTML,CSS,JS,Python,RAG
- When user search for any animal ,interface shows the related animal with different breeds with minimum information where user can obtain more by clicking 'read more' and then directs to another web page in which the page includes personal vet ai chat bot . user can ask any questions only related to the specific specie., and also user can search by using images or by directly capturing photos . the browser includes login,search history,dark and light modes,and a special ai bot.

•Self Healing Compiler

2026

The browser allows buggy C code as input and gives corrected code .

- Tools & technologies used: java,python,json
- In search bar we can give buggy C code in website ., it gives corrected C code with AI confidence score . it uses hybrid technique which is combination of both rule based repair and ai based repair . first the buggy code undergoes into rule based repair 3 times ., if still any bugs exist ,AI will take care of it. the used AI model is imported from salesforce code-T5 small which is pretrained , and specially i trained on broken codes of 8 types more than 500 samples in json format. the main advantage of this self healing compiler is this is integrated in compiler where we can avoid unnecessary copy paste of buggy codes.

TECHNICAL SKILLS AND INTERESTS

Languages: C,C++,java,HTML/CSS,JavaScript

Developer Tools: Git, GitHub, VS Code

Frameworks: RAG , Code T5

Cloud/Databases: JSON

Soft Skills: Problem Solving, Teamwork, Technical Writing

Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOPs)

Areas of Interest: Artificial Intelligence, Natural Language Processing (NLP), Full-Stack Development

ACHIEVEMENTS

•Secured 97.2% in State Board Intermediate Examinations among the top tier of students in the region.2024

•Successfully trained a custom NLP model using Salesforce Code-T5 with 500+ json samples. 2026
